

Junior Data Analyst at gohenry

Job description: Data Analyst

Company: gohenry

Location: Angel, London

Reporting to: Data team

Start date: flexible

Position: full time

Salary: dependant on experience

Experience: 1+ years

Website: www.gohenry.co.uk

The company:

We're an exciting fintech app that empowers young people to take part in the digital economy. Having just recently expanded into the US, we're building a global movement with families who fiercely believe that being good with money is a vital life skill.

Operating in four locations, our Lymington office is the base of our ops team. We have a dedicated 50-strong member services team in Farnborough, Hampshire. Our main management team is based in Angel, London where there are another 50 people across, product, development, data, marketing and finance. We also have an outpost in Toronto where our US operation is run from.

The job:

We are looking for an Insight Data Analyst to join our small but mighty data team. The successful candidate will develop analysis and reporting capabilities, and will also monitor performance and quality control plans to identify improvements.

You will:

- Develop a good understanding of the business as well as the underlying data structure
- Work with different teams to understand, document and conduct relevant analysis
- Support other members of the team on projects
- Interpret data, analyse results and provide ongoing reports
- Develop and implement data structures and collection systems
- Acquire data from primary/secondary data sources and maintain databases/data systems
- Filter and "clean" data by reviewing computer reports, printouts, and performance indicators to locate and correct code problems
- Work with management to prioritize business and information needs
- Present results and insights to stakeholder
- Locate and define new process improvement opportunities

Must-have skills:

- 1-2 years work experience as a data analyst
- Strong knowledge of SQL
- Highly proficient in Excel
- Experienced in data modelling, data mining and ETL processes
- A Bachelors in Mathematics, Economics, Computer Science, Statistics or similar discipline
- Knowledge of Python (pandas and numpy) or R

Nice-to-have skills:

- Experienced in creating and delivering reporting/dashboards (reporting tools such as Google Data studio, Tableau, Qlickview would be a plus)
- Experience with Git repositories
- Experience with VBA
- Experience with Python Scikit learn

You will personally be:

- A self starter with the ability to work independently and as part of a close knit team as well as keeping up with the new technologies and languages in the industry

Perks & Pointy details:

- Competitive salary, working full time hours
- Workplace pension scheme
- 25 days paid holiday a year
- Working in the heart of central/east London (the lunch options are unsurpassed)
- You'll get a perkbox account, with perks including:
 - Free mobile phone insurance
 - A free Caffé Nero hot drink each month
 - Discounted cinema tickets
 - Exclusive pricing on Apple products
 - Loads of lifestyle perks from gym discounts, massages, spas, beauty and more
- Training opportunities to further develop your craft
- A birthday lie-in and flexible working arrangements (within reason - tailored hours and working from home). We don't want to brag, but we also throw a mean summer party.

About us:

Good habits start young. So why is money management so often postponed until the age of 18?

Five years ago, our founders began with that question and finished with goHenry: an app and debit card for kids aged between 6 and 18.

Our innovative app empowers young people to learn and take charge of their own spending and saving, while the app's parent version allows mum and dad to guide kids through the early stages of digital finance.

Our overall mission? To make millions of kids good with money.

We Are:

- A young, fast-moving company with a passion for creating cool stuff and developing a product that genuinely value-adds to our audience's lives
- Ranked 8th on TechTrack's fastest growing UK companies in 2018
- In the throes of celebrating a recent £6 million crowdfund raise
- Planning a universe of flash-hot projects, from exciting brand partnerships to groundbreaking tech implementations
- A diverse office that prides itself on its people and mission
