

# UI Designer at gohenry

**Job description:** UI designer

**Company:** gohenry

**Location:** Angel, London

**Reporting to:** Head of Product & Design

**Start date:** flexible

**Position:** full time

**Salary:** dependant on experience

**Experience:** 3-5 years as a UI designer

**Website:** [www.gohenry.co.uk](http://www.gohenry.co.uk)

## The company:

We're an exciting fintech app that empowers young people to take part in the digital economy. Having just recently expanded into the US, we're building a global movement with families who fiercely believe that being good with money is a vital life skill.

Operating in four locations, our small Lymington office is the base of our operations team. We have a dedicated 50-strong member services team in Farnborough, Hampshire. The main management team is based in Angel, London where there are another 50 people across, product, development, data, marketing and finance. We also have an outpost in Toronto where our US operation is run from.

## The job:

After both rebranding and launching in the US last year, we are poised to make powerful advances to our product in 2019. Right now our small product team consists of a product director, product lead, UX lead and two UI designers. We are looking to increase our UX and research capacity and those who choose to join us will have the exhilarating opportunity to help shape the direction we take.

As our third UI go-to, you will work alongside our other designers, product managers and marketers, and collaborate with our developers to aid implementation of the designed user interface to ensure its quality. You will work as part of the product team to improve our sign up process and core product features, continuously iterating the design in an agile way. You'll also have the opportunity to play a vital role in continuing to develop the gohenry's visual identity across all platforms and shape the UI of the product.

**Must-have skills:**

- A Bachelors in design or equivalent exp in UI, visual communication or Interactive design
- Expert level skills in Sketch, Photoshop and Illustrator
- An outstanding portfolio that includes user-centric mobile and web-app work that demonstrates creativity, attention to detail and elegant, contemporary design solutions
- Knowledge of sign-up and onboarding processes
- Experience working within a consumer business
- Able to apply your skills across our website, mobile and web apps to create a cohesive product experience. There is a lot of scope for variety and creativity.
- Able to bring the brand to life with original, intuitive and engaging user interface mockups, taking a user centric approach to your work
- Experience working in Agile or Lean product team
- Ability to meet deadlines and turn around work in a timely manner
- Ability to digest a brief and create content that meets the specs

**Nice-to-have skills:**

- Animation and illustration skills
- Front-end coding skills
- Experience working within fintech or e-commerce specifically

**You will personally be:**

- All about the details. You'll have an eye for layout, typography, colour and balance.
- Mobile-oriented. With a general bias towards mobile design you'll also be comfortable preparing responsive designs and crafting iconography.
- Not necessarily a kid, but definitely a whiz. We're a very diverse workforce and actively encourage all ages and backgrounds to apply. (Legal working ages, that is.)
- Positive, passionate and proud of your work
- A resourceful self-starter who takes initiative and relishes a chance to problem-solve
- Someone who constantly seeks to learn about new tech and evolve the work you create
- Able to take feedback, but also able to justify creative decisions and stand your ground. You should also be able to convey your ideas well: both written and verbally

**Perks & Pointy details:**

- Competitive salary, working full time hours
- Workplace pension scheme
- 25 days paid holiday a year
- Working in the heart of central/east London (the lunch options are unsurpassed)
- You'll get a perkbox account, with perks including:
  - Free mobile phone insurance
  - A free Caffé Nero hot drink each month
  - Discounted cinema tickets
  - Exclusive pricing on Apple products
  - Loads of lifestyle perks from gym discounts, massages, spas, beauty and more
- Training opportunities to further develop your craft
- A birthday lie-in and flexible working arrangements (within reason - tailored hours and working from home). We don't want to brag, but we also throw a mean summer party.

**About us:**

Good habits start young. So why is money management so often postponed until the age of 18?

Five years ago, our founders began with that question and finished with gohenry: an app and debit card for kids aged between 6 and 18.

Our innovative app empowers young people to learn and take charge of their own spending and saving, while the app's parent version allows mum and dad to guide kids through the early stages of digital finance.

Our overall mission? To make millions of kids good with money.

**We Are:**

- A young, fast-moving company with a passion for creating cool stuff and developing a product that genuinely value-adds to our audience's lives
- Ranked 8th on TechTrack's fastest growing UK companies in 2018
- In the throes of celebrating a recent £6 million crowdfund raise
- Planning a universe of flash-hot projects, from exciting brand partnerships to groundbreaking tech implementations
- A diverse office that prides itself on its people and mission

If we sound like what you're into, please send your CV (and if applicable, a link to your website) to [working@gohenry.co.uk](mailto:working@gohenry.co.uk)
